### Experience:

Envestnet Inc., March 2021 - April 2023

#### *Front-End Engineer*

- Designed, developed, and maintained bank agent dashboards, AI-embedded widgets, white-label tools, and sequence dashboards using React, Vue, and Angular with a focus on continually improving UI/UX designs.
- Conducted captivating product demonstrations to showcase the latest features and functionalities of the AI-embedded widget's tutorial wizard, encompassing dynamic sequences and custom animations.
- Collaborated in team bonding exercises, such as workout challenges, group online games, and online happy hours, while engaging closely with a cross-functional team of 10 professionals to foster a culture of efficient teamwork and proactive knowledge sharing.

## **NuCamp Co., January 2020 - Present**

### ***Front-End Development Instructor***

- Presently providing instruction to students in React, React Native, JavaScript, and Bootstrap courses, yielding a 95% completion rate and consistently securing a class rating of 4.6 or higher.
- Providing mentorship and guidance to students as they create their projects, tackle weekly code challenges, and navigate a supportive learning environment.
- Conducting a weekly workshop attended by 10 to 20 students, to lead discussions on lessons, tackle code challenges, and provide assistance in troubleshooting any issues from the previous week.

## **Coding with Kids, October 2019 - March 2020**

### ***Coding Instructor***

- Instructed fundamental programming concepts to a diverse group of students, spanning from Kindergarten to 8th grade, over four weeks, achieving an 85% return rate among participants.
- Mentored a vibrant class of 10 to 16 students in developing interactive games, navigating tailored code challenges, and proficiently debugging issues utilizing Python and Scratch.
- Created customized lesson plans to cater to a range of skill levels, guaranteeing engaging and effective instruction for all students, from beginners to those with advanced programming fundamentals.

## **Helpful Human, August 2019 - November 2019**

### ***Front-End Engineer Intern***

- Utilized PreAct, SCSS, TypeScript, and Shopify Database to develop a robust calendar widget that aggregates a merchant's upcoming events and available tickets, providing enhanced organization capabilities for businesses.
- Implemented responsive design techniques with SCSS to ensure compatibility with Shopify themes, creating a visually appealing and user-friendly calendar widget.
- Led multiple successful product demonstrations to showcase the users' experience and functionality of creating and booking events with the calendar widget.

## **Education:**

### **Epicodus, February 2019 - September 2019**

#### ***Certificate in Web and Mobile Development***

The course encompassed a comprehensive curriculum, including the core principles of web design and development, as well as in-depth studies in JavaScript, C#, .NET, React, Redux, and collaborative pair programming.
